

Opening Ceremony

The ceremony evening will be an outstanding opening event with top-notch speakers from science, medicine, industry and politics highlighting the importance of this international congress.

Speakers are:

Professor Hermann Requardt

CEO of the Siemens Healthcare Sector

Dr. Annette Schavan

Federal Ministry of Education and Research

Professor Roger Tsien

Nobel Laureate in Chemistry 2008
"For the discovery and development of
the green fluorescent protein, GFP"

The evening will focus on the perspectives that advanced technologies and innovations in medicine and health care offer for the development of societies throughout the world in coming decades. The event will also provide various opportunities for personal contacts and talks in exclusive surroundings.

It's an event you can't miss!
